Climate Finance • Investment Readiness
Public-Private Collaboration

ALIGNMENT FOR SUB NATIONAL CLIMATE IMPACT

The summit is not just a conference; it is the launchpad for a structured multi-year climate implementation framework across the 7 North West states and 186 LGAs.

ABOUT THE SUMMIT

The North West climate summit is the foundational high level event designed to catalyse and operationalize the **North West Climate Action Plan**. It serves as the primary avenue for aligning political will, securing investment and deploying a structured framework for climate implementation across the region's seven states. Its purpose is to move from regional strategy to on-the-ground execution by connecting key stakeholders and resources.

KEY STAKEHOLDERS

- ✓ Convenes the President, 7 State Governors and 186 LGA Chairmen in a single room
- ✓ Demonstrates unrivaled political will and top-tier executive backing
- ✓ Facilitates immediate, high stakes dialogue between key decision makers

STRATEGIC MANDATE

- ✓ Creating an unprecedented platform for climate investment readiness
- ✓ Enabling structured Public-private collaboration at the sub-national level
- ✓ Moving beyond dialogue to execute on a concrete, scalable action plan
